

POLY BUMP

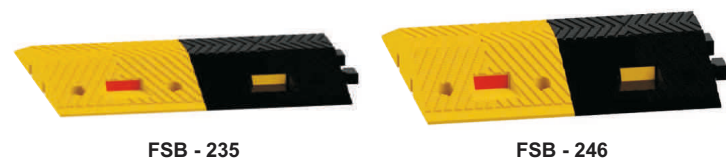

Frontier Hexacore Speed bumps are number one in load bearing capacity. Certified to pressures of over 40 tons ! Frontier speed breakers often referred to as poly bumps are made from new special material. These heavy duty speed breakers resist damage from chemicals or weather. Frontier poly bumps are maintenance-free, UV-resistant and will not fade or require frequent re-painting. Select from our two models and ask our experts to help you position them at your societies, parking lots, factories etc. Frontier heavy duty speed breakers are easy to install because of their modular construction.

Top surface of our speed bumps have a chequered texture on purpose so as to allow maximum grip between the vehicle tyre and the bump. As a speed bump manufacturer, Frontier has developed its unique identity in speed bump industry by providing strong and effective speed breakers.

Key Features:

- Made from a unique co polymer blend of high impact and tear resistant polymer
- Safe and easy for one person to transport and install
- Speed Bumps made in revolutionary Hexacore design
- Maintenance-free since they never need painting
- Resist damage from sun, salt, oil, and chemicals
- Colours do not fade or wear off
- High visibility, reflective tapes in Red & Yellow to warn during night
- Suitable for housing societies, malls, hospitals, hotels factories, colony roads, toll plaza etc
- Requires no cement filling
- Excellent property towards non deflection and deformation.
- Exceptional load bearing capacity

FSB - 235

FSB - 246

Dimensions:

Model	Length (mm)	Width (mm)	Height
FSB - 235	250	350	50
FSB - 246	250	450	60

UNIQUE HEXACORE DESIGN

*SINCE THE MATERIAL IS PLASTIC, SHRINKAGE / EXPANSION OF ATLEAST 3% IS TO BE CONSIDERED IN DIMENSION
