

BULLNOSE BARRIER

Frontier Toll plaza barrier has proven to itself to be extremely useful with good reflectivity and impact. Bullnose Barriers have saved numerous lives so far. Adequately filled with water ballast these Crash Barriers have time and again proven their worth in the industry. Place them at front of the concrete nose at toll plaza or simply use them at intersections of the fork. These UV stabilized, Non fading, High Reflective barriers are a must on Highways.

FBN-1

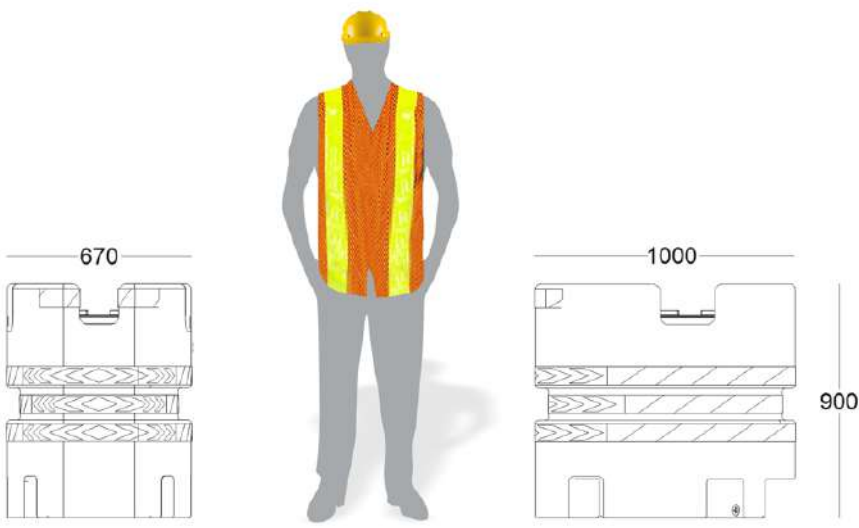

Key Features:

- For median, intersection, divider, tollbooth use
- One of a kind impact absorbing barriers
- Placed at critical intersections on two way streets
- High water ballast reduces injury to errand drivers
- High intensity reflective tape gives early warning
- UV stabilised and non-fading impact resistant polymer
- Award winning design
- Unique three layer construction with foaming in the middle adds to extra strength of the barrier

Dimensions:

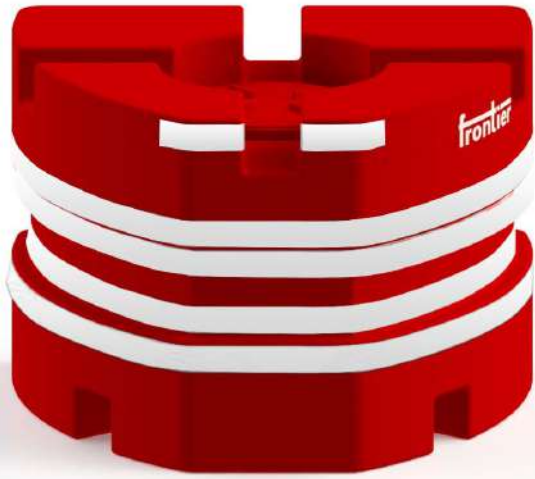

Length (mm)	Width Front (mm)	Width Back (mm)	Height (mm)	Water Ballast (Lts)
1000	390	670	900	350

All dimensions in MM

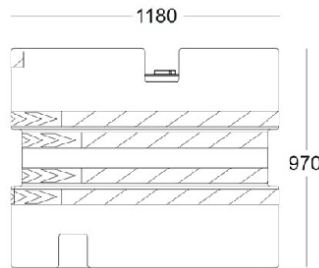

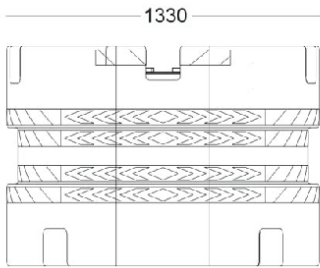

*SINCE THE MATERIAL IS PLASTIC, SHRINKAGE / EXPANSION OF ATLEAST 3% IS TO BE CONSIDERED IN DIMENSION
