

ECO BARRIER WITH PLANK

Frontier Eco Barriers are specially designed for massive stacking and freight savings. Options to fill sand bags or water to increase the ballast are provided in the design of this stackable road safety barrier. These sand filled barriers can be installed quickly by just one person. Use them on roads, malls, hospitals, schools etc. Reflective chevron markings on top make these barriers visible on road even at night. These sand filled barriers are great as visual warning barriers.

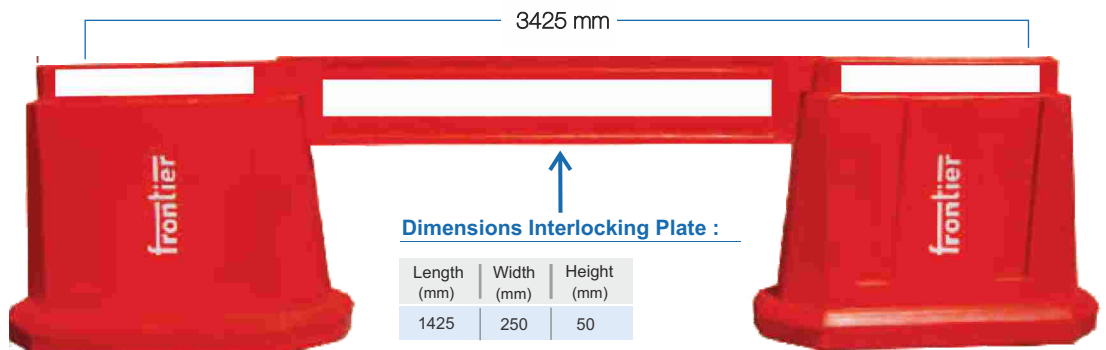

Key Features:

- Economical barrier system in the market
- Provides greater degree of safety than drums & cones
- Light weight, only one person required for assembly
- Highly visible in work areas
- Easily stackable, saves space & freight
- Single module system

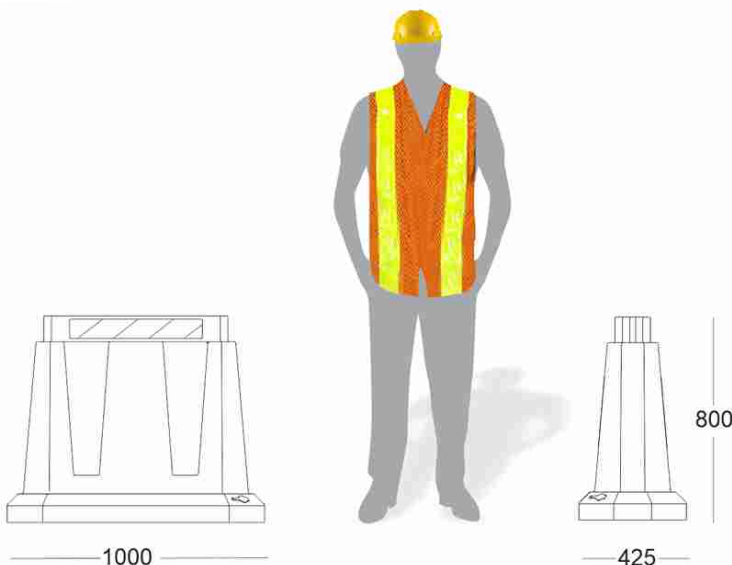

Dimensions:

Length (mm)	Width (mm)	Height (mm)	Water Ballast (Lts)
1000	425	800	5

Dimensions Interlocking Plate :

Length (mm)	Width (mm)	Height (mm)
1425	250	50

*SINCE THE MATERIAL IS PLASTIC, SHRINKAGE / EXPANSION OF ATLEAST 3% IS TO BE CONSIDERED IN DIMENSION
