

FRB-2 SW + FRB-3

Frontier FRB-2 barriers are 1 meter long road barrier with interlinking plank barrier. This barrier system was first designed and manufactured by us at Frontier. This barrier system with their modular design allows choosing the desired length. An economical way to ensure safety on road. These stackable road barriers are highly visible in work areas due to their coloured interlocking sections in Red & White. One worker can handle this crash barrier system and set up in no time. Provision to fill with water to make it heavier.

Light weight, requires only one person to install

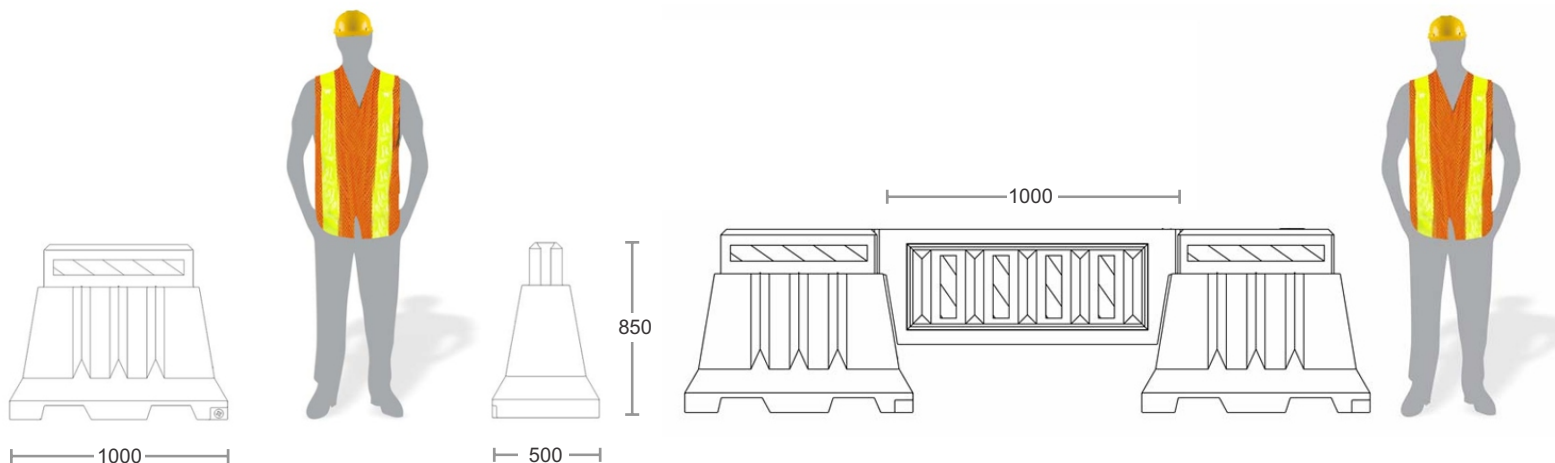

Interlocking

75% space & freight saving in stacking position

- Most economical water filled barrier system in the market
- Modular design allows choosing the desired length
- Provides greater degree of safety than drums & cones
- Tongue & groove interlocking system holds the barrier in place
- Plank barriers reduce the cost by nearly 40%
- Light weight, only one person required for assembly
- Highly visible in work areas with coloured interlocking sections in red & white
- Stackability allows to transport Approx . 420 mtr. length in a 40' container

*SINCE THE MATERIAL IS PLASTIC, SHRINKAGE / EXPANSION OF ATLEAST 3% IS TO BE CONSIDERED IN DIMENSION
