

ROAD SAFETY KART BARRIERS

Frontier Go Kart barriers are available in the size of 1200 mm length x 350 mm width x 600 mm height configurations. These go kart track barriers are perfect for setting up track perimeters at racing events. 25 Lts water ballast adds stability and minimizes driver impact during crashes. These go kart track barriers can take impact of karts hitting at 70-80 km per hr and can quickly be replaced during a race too.

Frontier go kart barriers are available in UV stabilized, non-fading colour options. Our Kart Barriers form a 100% wall effect and are easy to install and replace quickly thereby allowing you the flexibility to configure kart designs rapidly.

Dimensions:

Length (mm)	Width (mm)	Height (mm)	Water Ballast (Lts)
